KNOW YOUR LIMITS: MEDICAL CANNABIS PURCHASE GUIDELINES IN KENTUCKY

Stay informed. Stay compliant. Stay well.

DAILY PURCHASE LIMITS

As a registered medical cannabis patient in Kentucky, you are permitted to purchase the following amounts per day:

- Raw Plant Material (Flower): Up to 3.75 grams
- Concentrates: Up to 1 gram
- THC-Infused products such as edibles, tinctures, capsules, or other ingestible THC products:: Up to 130 milligrams of THC

These guidelines reflect patient limits under 915 KAR 1:070, Section 8. All limits are subject to the practitioner's certification and verification through the state tracking system.

10-DAY AND 30-DAY SUPPLY LIMITS

Kentucky law also defines limits for 10-day and 30-day supplies:

10-Day Supply:

- Raw Plant Material: Up to 37.5 grams
- Concentrates: Up to 9.5 grams
- THC-Infused Products: Up to 1,300 milligrams of THC

30-Day Supply:

- Raw Plant Material: Up to 112 grams
- Concentrates: Up to 28 grams
- THC-Infused Products: Up to 3,900 milligrams of THC

These cumulative limits help manage consistent access to medication while maintaining safety standards.

SPECIAL CONSIDERATIONS

- **Practitioner Recommendations:**
Your medical cannabis practitioner may recommend amounts exceeding the standard 30-day supply if they determine it's necessary for uninterrupted therapeutic or palliative relief. Such recommendations must be documented in your medical record and certification.
- **Non-Consumable Products:**
Topical products like ointments, lotions, and soaps do not count toward your daily or monthly limits.

STORAGE AND TRANSPORTATION

- **At Home:** You may store up to a 30-day supply of medical cannabis at your residence.
- **On the Go:** When outside your home, you are permitted to carry up to a 10-day supply.

Ensure all products are kept in their original, child-resistant packaging and stored securely away from children and pets.

CONSUMPTION GUIDELINES

While raw cannabis flower is available for purchase, smoking it is prohibited under Kentucky law. Approved methods of consumption include vaporization (for patients 21 and older) and other non-smokable forms such as edibles, tinctures, and capsules.

STAY INFORMED

For more information on medical cannabis regulations in Kentucky, visit the Kentucky Medical Cannabis Program website. <https://kymedcan.ky.gov>

TRACKING & PURCHASE RECORDS

All medical cannabis purchases in Kentucky are tracked through a secure statewide system to ensure patients stay within legal limits. Dispensaries will verify your daily, 10-day, and 30-day totals at the time of sale. Patients may only purchase from one dispensary per day.
